OFFICIAL 2007 RULES

Policy Preamble --The Iditarod Trail International Sled Dog Race shall be a race for all dog mushers meeting the entry qualifications as set forth by the Board of Directors of the Iditarod Trail Committee, Inc. Recognizing the varying degrees of experience, monetary support and residence locations of a musher, with due regard to the safety of mushers and the humane care and treatment of dogs, The Trail Committee shall encourage and maintain the philosophy that the race be constructed to permit all qualified mushers who wish to enter and complete the race to do so. The object of the race is to determine which musher and dogs can cover the race in the shortest time under their own power and without aid of others. That is determined by the nose of the

first dog to cross the finish line. To that end, the Iditarod Trail Committee has established these rules and policies to govern the race.

Policy Intent—The intent of these rules is to ensure fair competition and the humane care of sled dogs. The race should be won or lost by the musher and dogs on merit rather than technicalities. Race officials appointed by the ITC are responsible for interpreting the rules in keeping with that intent.

PRE-RACE PROCEDURES AND ADMINISTRATIVE RULES

Rule 1 -- Musher Qualifications:

A musher is qualified to race the Iditarod if:

- He/she is 18 years of age as of the starting date of the Race;
- He/she has completed a prior Iditarod Race, or
- He/she has completed the Yukon Quest International Sled Dog Race prior to signing up or entering the Iditarod Race, or;
- For the 2007 race, after July 1, 2004, he/she has completed two approved qualifying races with an accumulated total of at least 500 miles and he/she finished in the top 75% of the field or in an elapsed time of no more than twice the elapsed time of the race winner.
- Mushers must be in good financial standing with the ITC prior to the mushers' meeting.

Proof of Qualification:

- Except for a prior Iditarod, it is the musher's responsibility to provide written proof of completion of qualifiers to the Iditarod prior to February 14, 2007.

Qualifying Board:

- All rookie musher qualifications will be reviewed by a qualifying board appointed by the ITC. The board will make recommendations to the ITC executive committee. Rookies will be notified of acceptance or rejection.

Musher Meetings:

- Rookies must attend a rookie musher meeting the weekend of December 2, 2006, dates, time and place to be determined by the race marshal.
- All mushers must attend the pre-race musher meeting Thursday, March 1, 2007, starting at 9:00 a.m.
- A fine from \$50 to \$500 will be assessed for tardiness at either the rookie meeting or pre-race musher meeting.

Musher Draw and Starting Positions:

All mushers qualified to race must be present at the pre-race banquet on Thursday, March 1, 2007. Each musher will personally choose his/her starting position. Selections will be made in order of sign up and mushers may choose any position that has not been chosen.

Starting in 2010, all qualifiers must be completed prior to a mushers' signing up for the Race.

Rule 2 -- Entries: Entries will be accepted from June 24, 2006 until December 1, 2006 by the Iditarod Trail Committee (ITC), P.O. Box 870800, Wasilla, Alaska 99687-0800. Kennels entering must indicate the musher's name with their entry. Entries may be presented to the ITC in person by the musher, or by mail.

Mushers who enter in person will sign a log indicating the date and time that they arrived at ITC Headquarters which shall be utilized in determining the order of sign up. A musher will maintain his or her place in the sign up order so long as he or she does not leave ITC property.

Mailed entries will be recorded by postmark. Entries received with the same postmark will be recorded alphabetically for southern route races and in reverse alphabetical order for northern route races.

An entry will **not be considered complete until the entry fee is paid in full, the race application is completed, signed and turned in, the participant's release is signed, notarized and turned in, and**

the Nome housing form is completed and turned in. The local contact form and the dog care agreement will be turned in **no later than food drop.**

The ITC reserves the right to reject entries not in conformance with these policies and rules or from mushers who do not exemplify the spirit and principle of the Iditarod Trail Committee as set forth in the rules, policy, bylaws and mission statement. The decision to reject any entry will be made by the executive committee. A musher may appeal such a decision to the full Board of Directors within fourteen (14) days. The decision of the full Board will be final and binding.

No one convicted of a charge of animal abuse or neglect, as such is defined under Alaska law, may enter the Iditarod Trail Sled dog Race.

Any entry received after December 1, must be accompanied by a \$1750 non-refundable fee. The qualified musher will be allowed to enter after all normal policies and procedures have been met, the normal entry fee has been received and another musher withdraws. No musher will be allowed to sign up after February 14, 2007.

Rule 3 -- Entry Fee: The entry fee is \$1,860.00 US, which includes Iditarod and P.R.I.D.E. membership dues and return postage, payable on or after June 24, 2006. This entry fee must be received by the ITC or postmarked by midnight, December 1, 2006. Payment of the \$1,860.00 US constitutes the musher's intention to enter the race and acknowledges that the musher agrees to comply with these policies and rules.

Upon written request, mushers withdrawing from the race on or before 12:00 noon, January 19, 2007 will receive a \$1,500 refund of their entry fee. Upon written request, mushers withdrawing after January 19, 2007 and before the close of business on February 14, 2007, will receive a \$1,000 refund of their entry fee. After February 14, 2007, no part of the entry fee will be refunded.

Entry fees received that are not in compliance with this policy shall be refunded and the musher shall not be allowed to participate.

Rule 4 -- Substitutes: Substitute drivers will be allowed only in cases of emergency and only if approved by the race marshal prior to the re-start of the Race.

Rule 5-- Race Start and Re-Start: The official starting date and time for the 2007 race will be March 3, 2007, at 10:00 a.m. in Anchorage, Alaska.

The re-start will be on Sunday March 4, 2007 at 2:00 p.m. at a designated location. Teams will leave the re-start line in the same order as they left Anchorage on Saturday.

The race will be held as scheduled regardless of weather conditions. The starting place and/or re-starting place may be changed by the race marshal due to weather and/or trail conditions. A handler may be required at the start and/or re-start at the discretion of the race marshal.

Rule 6 -- Race Timing: For elapsed time purposes, the race will be a common start event. Each musher's total elapsed time will be calculated using 2:00 p.m., Sunday March 4, 2007, as the starting time. Teams will leave the start and the re-start in intervals of not less than two minutes, and the time differential will be adjusted during the twenty-four (24) hour mandatory layover. No time will be kept at the Saturday event.

Late starting teams will leave in the order drawn must start two (2) minutes after the musher who drew last place has left. Succeeding late start teams will leave in succeeding order. Time differential for late starters will be calculated according to their scheduled starting time rather than the actual starting time.

At the mushers' meeting, the mushers will be given the starting and re-starting intervals.

Rule 7 -- Advertising, Public Relations & Publicity: The Iditarod Trail Committee has the unqualified and unrestricted authority to authorize the photographing and collecting of information about the race and all

participants therein, and to use such photographs and information for its use in advertising, public relations or other publicity purposes. Each musher shall sign any and all documents as may be requested by the Iditarod Trail Committee.

Rule 8-- Media: Interviews and/or video graphic opportunities shall be granted to credentialed members of the media at the discretion of the individual musher prior to, during, and following the Race, utilizing the following as specific guidelines:

- Only the broadcast rights holder shall be granted *live* interviews and/or video graphic opportunities from two hours prior to the start of the Race and until one hour has elapsed following arrival in Nome.
- In the event that more than one camera crew is present in any checkpoint, the first opportunity for an interview shall be granted to the rights holder.
- No special arrangements for the carrying of the broadcasting and/or recording equipment of any sort may be made by any musher without the express written approval of the Executive Director.
- A musher will use his/her best personal effort to insure that the spirit of these guidelines is adhered to. Alleged violation(s) will be reported to the ITC Board of Directors. Flagrant or knowing violations of these guidelines shall be subject to penalties assessed by the ITC Board of Directors including, but not limited to, disqualification and the potential forfeiture of his or her entire purse winnings.

Rule 9 -- Awards Presentation: All mushers who have crossed the finish line up to two (2) hours before the awards presentation must be present and the winner must have his/her lead dog(s) present for recognition. Any musher crossing the finish line who is able to attend the awards presentation ceremony prior to its beginning, will be included in the awards presentation ceremony in the proper order. All mushers reaching the banquet before its conclusion will be introduced and given the opportunity to appear before the audience.

Rule 10 -- Scratched Mushers: ITC will provide transportation to either Anchorage or Nome for any musher who scratches from the race, including his or her dogs and accompanying gear. A musher must accompany the team to a destination selected by the ITC. A \$500 fine will be assessed if promotional material is not turned in.

Rule 11 -- Purse: It is anticipated that a purse of approximately \$794,800 be shared and that the purse will be finalized December 15, 2006. In addition, beginning with 31st place, \$1,049.00 will be paid to each remaining finisher.

MUSHER CONDUCT AND COMPETITION

Rule 12 -- Checkpoints: A musher must personally sign in at each checkpoint before continuing, except at the re-start.

Rule 13 -- Mandatory Stops: A musher must personally sign in and out to start and complete all mandatory stops.

Twenty Four-Hour Stop: A musher must take one mandatory twenty-four (24) hour stop during the race. The twenty-four (24) hour stop may be taken at the musher's option at a time most beneficial to the dogs. The starting differential will be adjusted during each team's twenty-four (24) hour stop. It is the musher's responsibility to remain for the entire twenty-four (24) hour period plus starting differential. The ITC will give each musher the required time information prior to leaving the starting line.

Eight Hour Mandatory Stops: In addition to the mandatory twenty-four (24) hour stop, a musher must take one eight (8) hour stop on the Yukon or Shageluk) and one eight (8) hour stop at White Mountain.

None of the three (3) mandatory stops may be combined.

Rule 14 -- Bib: A musher is required to carry his/her official ITC bib from the start and re-start, according to direction from the race marshal at the mushers' meeting and from the White Mountain checkpoint to Safety checkpoint. The musher must wear the bib in a visible fashion from Safety Checkpoint to Nome. The winner

shall continue to wear the bib through the lead dog ceremony. All promotional material, except the bib, must be returned to the ITC at the finish line, or in the case of mushers who scratch, to the official accepting the musher's scratch form.

Rule 15 -- Sled: A musher has a choice of sled subject to the requirement that some type of sled or toboggan must be drawn. The sled or toboggan must be capable of hauling any injured or fatigued dogs under cover, plus equipment and food. Braking devices must be constructed to fit between the runners and not to extend beyond the tails of the runners. No more than three (3) sleds can be used by a musher during the race after the re-start. No more than two (2) sleds can be shipped beyond the re-start. Should a musher use another musher's sled for any reason that will be considered one (1) of the three (3) allowable sleds. These sleds may be used at the musher's discretion. Sleds or mushers may not be assisted with sails or wheels. Ski poles are allowed. No other sled exchanges are permitted except that a sled damaged beyond repair may be replaced if approved by an official. Once a sled has been left behind, it cannot be transported along the trail. It cannot be used again unless approved by the race marshal as a replacement for a broken sled.

Rule 16 -- Mandatory Items: A musher must have with him/her at all times the following items:

- Proper cold weather sleeping bag weighing a minimum of 5 lbs.
- Ax, head to weigh a minimum of 1-3/4 lbs., handle to be at least 22" long.
- One pair of snowshoes with bindings, each snowshoe to be at least 252 square inches in size.
- Any promotional material provided by the ITC.
- Eight booties for each dog in the sled or in use.
- One operational cooker and pot capable of boiling at least three (3) gallons of water at one time.
- Veterinarian notebook, to be presented to the veterinarian at each checkpoint.
- An adequate amount of fuel to bring three (3) gallons of water to a boil.
- Cable gang line or cable tie out capable of securing dog team.

When leaving a checkpoint adequate emergency dog food must be on the sled. (This will be carried in addition to what you carry for routine feeding and snacking.)

Gear may be checked at all checkpoints except Safety.

Vet books will be checked by a veterinarian or in the absence of a veterinarian may be checked by a designated race official.

Rule 17 -- Dog Maximums and Minimums: The maximum number of dogs a musher may start the race with is sixteen (16) dogs. A musher must have at least twelve (12) dogs on the line to start the race. At least five (5) dogs must be on the towline at the finish line. No dogs may be added to a team after the re-start of the race. All dogs must be either on the towline or hauled in the sled and cannot be led behind the sled or allowed to run loose.

Rule 18 -- Unmanageable Teams: A musher may seek the aid of others to control an unmanageable team.

Rule 19 -- Driverless Team: A team and driver must complete the entire race trail including checking in at all required locations. A driverless team or loose dog may be stopped and secured by anyone. The driver may recover his/her team either on foot, with assistance from another musher or mechanized vehicle and continue the race. Motorized assistance must be reported to an official at the next checkpoint. If mechanized help is used and advantage has been gained, the race marshal may impose appropriate sanctions.

Rule 20 -- Teams Tied Together: Two or more teams may not be tied together except in an emergency. Any team so involved must notify officials at the next checkpoint.

Rule 21 -- Motorized Vehicles: A musher may not be accompanied by or accept assistance from any motorized vehicle that gives help to the musher, including aircraft and snow machines, except when recovering a loose dog or driverless team.

Rule 22 -- Sportsmanship: Any musher must use civil conduct and act in a sportsmanlike manner throughout the race. Abusive treatment of anyone is prohibited.

Rule 23 -- Good Samaritan Rule: A musher will not be penalized for aiding another musher in an emergency. Incidents must be explained to race officials at the next checkpoint.

Rule 24 -- Interference: A musher may not tamper with another musher's dogs, food or gear or interfere in any manner with the progress of another team.

Rule 25 -- Passing: When one team approaches within fifty (50) feet of another team, the team behind shall have the immediate right of way upon demand. The musher ahead must stop the dogs and hold them to the best of his/her ability for a maximum of one minute or until the other team has passed, whichever occurs first. The passed team must remain behind at least fifteen (15) minutes before demanding the trail.

Rule 26 -- Parking: A musher must select a campsite off the race trail so that the team cannot interfere with other teams, i.e., no snacking of dogs on the trail. A musher needing to stop momentarily must not interfere with the progress of another team. Teams must be parked at checkpoints in places that do not interfere with the movements of other teams and mushers. A musher is responsible for properly securing an unattended team. No parking or camping is permitted within one (1) mile of checkpoints or villages.

Rule 27 -- Accommodations: Mushers may only use officially authorized accommodations. Accommodations and or hospitality outside checkpoints must be a) open to all race participants and b) locations made notice of at the mushers' meeting prior to the start of the Race.

Rule 28-- Litter: No litter of any kind may be left on the trail, in camps, or in checkpoints. All material remaining in checkpoints must be left in designated areas. In localized holding area and on the trail, excessive left over dog food is considered litter. For purposes of these rules, straw is not considered litter. Straw must be removed from plastic bags before it is taken from the holding area at checkpoints.

Rule 29 -- Use of Drugs and Alcohol: Drug or alcohol impairment and drug use by mushers during the Race is prohibited. All mushers will be subject to drug and alcohol testing under any of the following circumstances:

- Whenever a race official reasonably suspects that the musher is under the influence of drugs or alcohol; or
- On a random or chance basis, either individually or as a group.

For purposes of this policy, drugs are defined as marijuana, hashish, cocaine, opiates, amphetamines, phencyclidine or any other narcotic or controlled substance as defined by federal or state law.

To the extent practical, drug and alcohol testing will be conducted pursuant to the U.S. Department of Transportation Drug and Alcohol Testing Procedures (49 CFR Part 40, as amended) and Alaska Stat. 23.10.600-23.10.699, both of which are incorporated herein by reference. A musher will be deemed to be impaired if a detectable concentration of a drug, or the metabolites of such drug, is found in his or her system using the limits of detection established by a drug testing service or alcohol is found in his or her system at .04% BAC. Copies of the U.S. Department of Transportation Drug and Alcohol Testing Procedures and Alaska Stat. 23.10.600-23.10.699 are available for inspecting upon request.

A musher who tests positive for drug use or alcohol impairment is subject to immediate withdrawal from the Race. A refusal to participate in drug or alcohol testing will result in immediate withdrawal from the Race. Adulteration of a test specimen will be treated as a refusal to participate in drug or alcohol testing. Nothing in this policy is intended to require drug testing before a musher is sanctioned for suspected drug use or alcohol impairment that is supported by other evidence.

Rule 30 -- Outside Assistance: No planned help is allowed throughout the Race. All care and feeding of dogs will be done only by that teams' musher. All dog maintenance and care of dog teas and gear in

checkpoints will be done in the designated localized holding area. A musher relinquishing the care of his/her team to leave the checkpoint and or village without approval of the race marshal must withdraw from the Race. Common resources available to all mushers will not be considered outside assistance.

Rule 31-- No Man's Land: No man's land is the trail between Ft. Davis Roadhouse and the official finish line in Nome. A musher need not relinquish the trail on demand in this area.

Rule 32 -- One Musher per Team: Only one musher will be permitted per team and that musher must complete the entire race.

Rule 33 -- Killing of Game Animals: In the event that an edible big game animal, i.e., moose, caribou, buffalo, is killed in defense of life or property, the musher must gut the animal and report the incident to a race official at the next checkpoint. Following teams must help gut the animal when possible. No teams may pass until the animal has been gutted and the musher killing the animal has proceeded. Any other animal killed in defense of life or property must be reported to a race official, but need not be gutted.

Rule 34 -- Two-Way Communication Device, ELT or Satellite Tracking Device: No two-way communication device shall be allowed unless provided by ITC. Use of any electronic communication or tracking device shall not be permitted unless provided by the ITC.

Rule 35 Navigation: Mushers are restricted to the use of traditional forms of navigation. This includes time, distance as known or measured on a map, speed as is computed with simple arithmetic and direction as indicated by magnetic compass. Electronic or mechanical devices that measure speed and direction are prohibited, i.e. Loran, night vision goggles and GPS'.

Rule 36 -- Competitiveness: The race marshal shall have the authority to withdraw a team that is out of the competition and is no longer making a valid effort to compete. The race marshal also has the authority to withdraw a musher whose conduct, in the race marshal's sole and exclusive judgment, constitutes an unreasonable risk of harm to himself/herself, dogs or other persons.

VETERINARY ISSUES AND DOG CARE RULES

Rule 37 -- Dog Care:

- Dogs must be maintained in good condition. All water and food must be ingested voluntarily.
- Dogs may not be brought into shelters except for race veterinarians' medical examination or treatment. Dogs must be returned outside as soon as such examination or treatment is completed unless the dog is dropped from the race.
- There will be no cruel or inhumane treatment of dogs. Cruel or inhumane treatment involves any action or inaction, which causes preventable pain or suffering to a dog.

Rule 38 -- Harness and Cables: Dogs must leave checkpoints with functional, non-chafing harnesses. A musher must carry cable tie-out lines or have cable in the towline capable of securing the team. Equipment and team configurations deemed unsafe by race officials are prohibited.

Rule 39 -- Drug Use: No oral or topical drug which may suppress the signs of illness or injury may be used on a dog. No injectables may be used in dogs participating in the Race. No other drugs or other artificial means may be used to drive a dog or cause a dog to perform or attempt to perform beyond its natural ability. The following drugs and procedures are prohibited:

- Anabolic Steroids
- Analgesics (prescriptive and non-prescriptive)
- Anesthetics
- Antihistamines
- Anti-inflammatory drugs including but not limited to:
 - Cortico-steroids (the exception is for use on feet)

- Antiprostaglandins.
- Non-steroidals.
- Salicylates.
- DMSO.
- Bronchodilators
- Central Nervous System Stimulants
- Cough Suppressants
- Diuretics
- Muscle Relaxants
- Tranquilizers & Opiates
- Blood doping

Mibolerone (Cheque Drops) is permitted only for use as an estrus suppressant in intact females that have not had an ovariectomy. Megesterol acetate (Ovaban) is permitted for use of estrus suppression and medical conditions for which progesterone therapy is appropriate, as approved by the chief veterinarian.

Race veterinarians may utilize any of the listed drugs or other prohibited drugs necessary to maintain a dog's health, however, such dogs will be withdrawn from the race.

Drug Testing:

- Dogs are subject to the collection of urine or blood samples, at the discretion of the testing veterinarian, at any point from the pre-race examination until six (6) hours after the team's finish. The musher or a designee will remain with the dogs. All results will be sealed and signed for before the tests are considered complete.
- A musher must assist the veterinarian in collecting samples whenever requested. If blood or urine testing of a dog reveals any of the prohibitive drugs in the dog, this rule has been violated regardless of when such drugs were administered to the dog. Blood, urine and other test results will be made available upon request.

Rule 40 -- Pre-Race Veterinary Exam: Veterinary paperwork, including Pre-Race Exam forms (one for each dog with proof of vaccination), Dog Microchip Identification Sheet (maximum 20), Verification of Deworming Form and the Veterinarian Signature Form (the letter from the chief veterinarian addressing the veterinarian who performs the physical exams which must be signed along with each Pre-Race Exam Form), has to be delivered to ITC Headquarters by the deadline of 5:00 P.M. on Wednesday, February 28. Non-compliance will result in a fine of \$100.

Mushers will get appointments for blood tests and ECGs (EKGs) on first come first served basis, beginning at 8:00 a.m. Friday December 1, 2006. Appointments must be made by December 20, 2006. The chief veterinarian will have the authority to deny entry to any dog if, after consultation with a veterinary cardiologist or internist (when available), it is the professional opinion of the chief veterinarian that the dog has an abnormality which may predispose it to a significant risk of injury or death.

A musher must have the team physicals performed at the official pre-race veterinary examination or by an ITC approved veterinarian, on or after February 16, 2006. The following conditions will prohibit a dog from participating: seizures (epilepsy), syncope (fainting) and/or pregnancy.

A musher is permitted to have a maximum of **24 dogs** screened (microchips, EKG's and blood work) in preparation for Iditarod 2007. (All **24 dogs** must be screened at the original appointment date. There will be **no** additional screening after that time.) From these, a musher may select a maximum of **20 dogs** for listing on the Dog Microchip Identification Sheet, which must be submitted to ITC Headquarters by the previously stated deadline of 5:00 p.m. on Wednesday, February 28. To be listed on the Microchip Identification Sheet, dogs must have had pre-race screening by Iditarod personnel, including a documented microchip implant number, an ECG (EKG) recording and blood work. In addition, each must have had a pre-race physical exam to be eligible to race. The musher may select his/her dogs for the start from any dogs previously qualified. Dogs for the re-start may be selected from any dogs previously qualified and not run in another team on Saturday.

The maximum number of dogs permitted at the start will be determined by the Race Marshal. A maximum of 16 dogs may be selected for the re-start. Once a dog has run in a team, that dog cannot be switched to another team.

All dogs entered in the race must have current distemper, hepatitis, parvo, and rabies vaccines. Proof of these vaccinations, except for rabies, must come from a veterinarian or a certified lay vaccinator or if administered by the musher, records must include type of vaccine, proof of purchase (i.e., receipt), and date of vaccination in writing. The distemper/hepatitis/parvo/vaccine must have been given between April 1, 2006, and February 18, 2007.

Proof of rabies vaccine must come from a licensed veterinarian or certified lay vaccinator. Rabies vaccines must be given no later than February 18, 2007 and must be current through April 1, 2007 according to Alaska State regulations.

All teams must be de-wormed for *Echinococcus Multilocularis* with a medication approved by the ITC on or after February 21, 2007. The ITC is currently negotiating with the sponsor for donation of this de-worming medication. However, mushers should be prepared to pay for this medication if it is not available from the sponsor.

For those mushers who have volunteered and signed consent forms, ITC will be allowed to collect samples and gather data from dropped dogs and dogs that have completed the race, in the effort to gather information to improve dog care.

Rule 41 -- Jurisdiction and Care:

All dogs entered in the race are under the jurisdiction of the chief veterinarian and veterinary staff from the time they enter the staging area at the start until 72 hours after they have been released by the ITC veterinarians. The chief veterinarian shall have the authority to determine in his or her exclusive discretion whether any dogs require veterinary care and to select the provider, including treatment by medical specialists and or 24-hour care facilities, prior to an animal's release. In such case, financial responsibility shall be borne by the musher. In addition, the chief veterinarian will have immediate access to medical records and updated status reports of all dropped for up to 72 hours after their release. In the event that a death occurs within the 72-hour period following release, an ITC representative will participate in a necropsy of that animal.

Rule 42 -- Expired Dog: All dog deaths are regrettable, but there are some that may be considered unpreventable.

Any dog that expires on the trail must be taken by the musher to a checkpoint. The musher may transport the dog to either the checkpoint just passed, or the upcoming checkpoint. An expired dog report must be completed by the musher and presented to a race official along with the dog.

All dog deaths will be treated as a priority, with every effort being made to determine the cause of death in a thorough and reliable manner.

- The race marshal or his/her appointed judges, will determine whether the musher should continue or be disqualified.
- The chief veterinarian will cause a necropsy to be carried out by a board certified pathologist at the earliest opportunity and shall make every attempt to determine the cause of death.
- If a board certified pathologist is not available to perform the necropsy within the time frame to preserve the tissues appropriately, (as determined by the race marshal), the gross necropsy and tissue collection will be performed by a trail veterinarian following the guidelines in the *Musher and Veterinary Handbook*.
- These tissues will then be examined by a board certified pathologist.

A musher will remain at the initial reporting checkpoint for up to, but no longer than, eight hours to commence the investigation. The musher and or his/her representative has the option to be present during the trail evaluation and necropsy. This period is not to be used as a penalty. A musher will also make him/herself available at all future checkpoints to assist in the investigation. The race marshal or his/her appointed judges may release a musher before the eight hours have expired if the judge is satisfied that the musher is no longer needed to further the investigation. Dog deaths resulting in disqualification are:

- Signs of cruel, inhumane or abusive treatment
- Cause of death is heat stress, hyperthermia.
- A musher will be disqualified if he/she had been advised in writing by a race veterinarian or judge to drop the dog at a previous checkpoint, but opted not to do so, unless the cause of death is clearly unrelated to this written recommendation.

The musher will not be penalized and may continue the race if:

- Cause of death can not be determined
- The cause of death is due to a circumstance, nature of trail, or force beyond the control of the musher. This recognizes the inherent risks of wilderness travel.
- Cause of death is from some unpreventable or previously undiagnosed medical condition.

It is the policy of the ITC to report a dog death to the public in a timely fashion. The ITC will accomplish this by:

- The race marshal shall immediately issue a press release to members of the media identifying the dog's death
- Immediately following the gross necropsy, the race marshal will notify the musher of the results and will issue a press release containing the findings and the circumstances of the death.

Rule 43 -- Dog Description: Only dogs suitable for arctic travel will be permitted to enter the race. Suitability will be determined by race officials.

Rule 44 -- Dog Tags: The ITC will provide drivers with dog tags at the mushers' banquet. All dogs must wear tags and the tag numbers must correspond with the dog name and tag numbers written in the vet book. Only current tags are permitted.

Rule 45 -- Dropped Dogs: All dogs that are dropped from the Race must be left at a designated checkpoint with a completed and signed dropped dog form. Any dropped dog must be left with four (4) pounds of dog food and a reliable chain or cable (16" to 18" in length) with a swivel snap and collar. Dropped dogs may be moved from the originating checkpoint to the closest dog collection area at Anchorage, McGrath, Unalakleet or Nome. Dogs may be shipped from the collection areas to a location designated by the musher at the musher's expense.

- Dogs dropped in ANCHORAGE, EAGLE RIVER & the restart are the musher's responsibility.
- GOLOVIN & NOME are not dog drops.
- Dogs dropped in ALL OTHER CHECKPOINTS will be transported by the ITC.

Dogs left unclaimed at Eagle River Correctional Center after four days after their arrival will incur boarding charges at the current rate, payable by the musher.

Rule 46 -- Hauling Dogs: A musher may haul dogs in the sled at his/her discretion, however, the musher may not allow any of the dogs to be hauled by another team. Dogs must be hauled in a humane fashion and must be covered if conditions require.

FOOD DROPS AND LOGISTICS

Rule 47 -- Shipping of Food and Gear: A musher must comply with shipping directions provided by the ITC. Each container must be clearly marked with name and destination and must weigh no more than 70 pounds. No boxes of any kind may be used as the primary container. No straw, charcoal, fuel or other combustible material, or hazardous materials (including lithium batteries) may be shipped through the ITC food drops. No cookers, plastic buckets, coolers or dog dishes may be shipped except with any sled that is shipped. Used items may be removed from checkpoints with dropped sleds, by return mail or through the ITC.

Perishable food must be delivered to the ITC in a frozen state.

All mandatory food must be sent through Iditarod food drops. The ITC will provide and ship straw and fuel for the teams to the checkpoints. Additional food and gear may be shipped prior to the start but must be shipped to the checker. Gear or food drops damaged or lost may be replaced upon approval of the race marshal or designee.

Food drop payment must be received by the ITC at time of delivery.

A musher's personal gear, equipment and supplies may not be transported along the trail by mechanized means without the consent of the race marshal.

Dog food left behind and dog food from scratched, withdrawn and disqualified mushers becomes the property of the ITC and may be used at the discretion of race officials.

Rule 48 -- Shipping Amounts: An adequate amount of food is required to be shipped to the following checkpoints (minimum of 60 pounds combined weight of food and gear):

Skwentna	Takotna	Graying	Koyuk
Rainy Pass	Ophir	Eagle Island	Elim
Rohn	Iditarod	Kaltag	White Mountain
Nikolai	Shageluk	Unalakleet	Nome
McGrath	Anvik	Shaktoolik	

Food and/or gear will **not** be shipped to the checkpoints of Yentna, Finger Lake or Golovin.

The Safety checkpoint is optional for shipment of gear and/or food.

OFFICIALS, PENALTIES AND APPEALS

Rule 49 -- Race Officials: The race marshal and judges are responsible for the enforcement of all ITC policies and race rules. Race officials shall consult with the chief veterinarian on all matters relating to dog care and treatment.

Rule 50 -- Protests: A musher may protest any action of a competitor or race official that he/she feels is contrary to the intent of these rules. To be recognized as a legitimate protest, any action observed by a musher must be presented in writing at the next checkpoint and in no case more than twenty-four (24) hours after a musher finishes the race.

Rule 51-- Penalties: Policy and rule infractions may result in issuance of warnings, monetary penalties, time penalties, censure, withdrawals or disqualification.

- Warnings may be issued by any official for first time or minor violations
- Monetary penalties may be imposed up to \$1,000 per violation. Such penalties may be deducted from prize money. A musher with unpaid fines may not enter future Iditarod races until such fines are paid.
- Time penalties require a majority decision of a three-member panel of race officials appointed by the race marshal. Time penalties may be imposed up to a maximum of two (2) hours per infraction and will be added to the twenty-four (24) hour layover, the eight-hour layover on the Yukon River or the eight (8) hour layover at White Mountain. Time penalties will not be levied past White Mountain.

- Withdrawal is a process that must be imposed by a three-judge panel, either by a majority or unanimous vote, and which has the effect of involuntarily eliminating the musher and team from the race but which does not imply any deliberate misconduct or violation. The team and musher must leave the trail and will be assisted by the ITC.
- Disqualifications require a unanimous decision of a three-member panel of race judges appointed by the race marshal. The chief veterinarian will be consulted in all cases involving cruel or inhumane treatment. Mushers shall be disqualified for rule infractions involving physical abuse of a dog, or for cheating or deliberate rule infractions that give a musher an unfair advantage over another musher. Mushers may also be disqualified for other acts involving cruel and inhumane treatment. It is intended that the nearest involved officials be included on the panel. The musher will be given the opportunity to present his case to each member of the panel prior to the decision. Disqualified and withdrawn teams must leave the trail or forfeit the right to enter future Iditarods.
- Censure: The Board of Directors, following completion of the race, may censure a musher. A censure may include a warning, either public or private and may eliminate the musher from future races. A written warning, monetary penalty or disqualification must have occurred before censure.

Rule 52 -- Appeals: Mushers may appeal race official decisions. Appeals pertaining to warnings or monetary fines must be presented in writing to the ITC within ten (10) days following the awards banquet. Appeals pertaining to censure must be presented in writing to the ITC within ten (10) days after receipt of the censure by the musher. Appeals pertaining to withdrawals, disqualifications or time penalties must be presented in writing to ITC within 10 days following the awards banquet. Appeals will be considered at an informal hearing before an appeals board appointed by the president of ITC which will be held within forty-five (45) days of filing the appeal. Review by the appeals board is the exclusive, final and binding remedy for any dispute regarding application of the rules by race officials to a musher and that the decision of the appeals board is non-reviewable either in state or federal courts.
