

Resume

Name: Albert E. Alligator

Nickname: Gator Breath

Class: Reptila

Year of birth: 1987

Age: 20 years

Address: Rivers, ponds, lakes, and wetlands areas of the southeastern United States

Personal Description: I am a male alligator, about 11 feet long and weighing 447 pounds. I have four short legs and am shaped like a large lizard. I have a powerful tail that you better watch ou for! My skin is rough and scaly. I am a protected animal that eats fish, turtles, mammals, birds, and snakes. Sometimes, I even eat one of my own!

Job Goal: I am looking for a job as a private investigator. I would be great at the job because with my dark skin, uniform color, I can lurk in murky waters and spy on suspected criminals. When confronted, I could use my large sweeping tail to knock my attacker down. Then I could use my tail to keep him from getting away or threaten to bite him with my 80 teeth!
